

REMARKS/ARGUMENTS

Claims 1-49 are canceled.

Claims 50-53, 56, 58, 61, 63, and 66 are amended by this amendment.

Claims 50-67 are pending.

First of all, applicant would like to thank the Examiner in so many ways to accept an international phone call from Japan on 2008-01-30.

In response to the O.A. dated 2007-11-15, claims 50-53, 56, 58, 61, 63, and 66 are amended to particularly point out and distinctly claim the subject matter which applicant regards as the invention. For example, the phrase "method which displays an object" is amended to "method which generates an object", and the phrase "1st length is displayed on or near" is amended to "1st length is generated on or near" in claims 50-52. As another example, the phrase "wherein said 3rd value indicates approximately 180 degrees" is deleted in claims 56, 61, and 66.

Conclusion

For all of the above reasons, applicant submits that the claims all define patentably over the prior art. Therefore, applicant submits that this application is now in condition for allowance, which action applicant respectfully solicits.

Conditional Request Constructive Assistance

If, for any reason this application is not believed to be in full condition for allowance, applicant respectfully requests the constructive assistance and suggestions of the Examiner pursuant to M.P.E.P. § 2173.02 and § 707.07(j) in order that applicant can place this application in allowable condition as soon as possible and without the need for further proceedings.
